Proposed Graduation Requirements

New graduation requirements to be considered. Please be watching your email for a message from us regarding a [proposal to revise the state graduation requirements](#). South Dakota's current graduation requirements date back nearly a decade. Recently, education stakeholders have come together to discuss whether these requirements continue to meet the needs of our youth, our employers, and our communities. The proposal combines opportunities for rigor, student engagement and flexibility. The proposal was developed to provide students with multiple opportunities to meet their postsecondary and career goals within a framework of general high school graduation requirements.

Disability Rights Focus

- In the area of special education, DRSD will focus on abuse and neglect, seclusion and restraint, suspension and expulsion, and transition services. The priority for these cases is to identify those cases that will affect how the system works. This means that within the identified priorities, the staff are looking for those cases that will affect as many people as possible. There are procedures available in DRSD policy to allow for consideration of exceptions to the priorities. This type of request will need to contain a strong argument for how the case will impact the system.

Indicator 11 and 12 Reporting

Indicator 11 and 12:

- **District data** - District should pull the report called "Child List District" under the reports tab in Launchpad. This allows you to review submitted student data checking for accuracy.
- **Calculating the 25-day timeline** - The date a district staff member receives the signed permission **in-hand** is considered day one. For further guidance on which days may be included in the timeline, see Indicator 11 Directions at <http://www.doe.sd.gov/oess/sped-SPP.aspx>.
- **Indicator 12** - IEPs must be in place by the child's 3rd birthday (cannot not be prior to the 3rd birthday).
- **Uploading district calendars (regular and early childhood)** - It is important to upload a clean calendar that indicates snow days and any other important dates. The easier it is to read the less likely we will need to contact with questions or corrections to your data.
